Subject: Comments on the Draft Residential Sampling report--Wilcox

Mark, please find attached comments from Todd and I on the draft report. Given the quick turnaround, we may not have caught all of the inconsistencies or missing documentation. Please request that the contractor take additional time to make sure that all descriptions are consistent from section to section, that the data summary tables match the sample descriptions in the text, that the text describe both the sampling and fencing actions that were completed, and that the attachments contain all QASP and SOPs related to the project.

Please call with any questions.
